2 semester	2 semester	Yes	2	Free Choice

8 Rating system and requirements

The current success of students is estimated on a 4-point scale (2; 3; 4; 5) at each practical level, taking into account the approved evaluation criteria for the relevant discipline. The student must receive an assessment on each topic for further conversion of grades into scores on a multi-point (200-point) scale. Evaluation of students' independent work on preparation for classroom practical classes is carried out during the current control of the topic at the appropriate classroom.

When evaluating the current educational activity of the student, 20% of the assessment is the independent work of the student, which takes into account the knowledge of the topic of independent study and the performance of work in the school on "ENGLISH LANGUAGE MEDICAL TERMINOLOGY".

Semester scoring is evaluated on a two-point scale (enrolled/not counted) and a 200-point scale by determining the average arithmetic current score for each practical session on a 4-point scale, and its subsequent conversion into scores of 200-point scale.

Final (final) control of the sections is carried out at the end of the section in the form of a written test, which includes test tasks, theoretical questions and control of practical skills.

The final control of knowledge in the discipline is carried out in the form of a differentiated test.

Tips for successful training on the course

If you want to be successful in this discipline, then you must:

1. Be active, persistent, inquisitive, consistent
2. Be tidy and polite
2. Systematically prepare for practical classes
3. Perform tasks for independent work and protect them in the classroom.
3. Attend the class in a medical gown
4. Independently solve tests and tasks, actively work in the classroom.
5. Prepare presentations and crossword puzzles in the discipline. Participate in student scientific conferences and engage in-research work in scientific circles of the department.

I wish you perseverance, dedication and motivation to study. And then success attend you! To the meeting in the classroom!
