Rating system and requirements

The current success of students is estimated on a 4-point scale (2; 3; 4; 5) at each practical level, taking into account the approved evaluation criteria for the relevant discipline. The student must receive an assessment on each topic for further conversion of grades into scores on a multi-point (200-point) scale.

"5" – the student correctly, fully and reasonably revealed the theoretical question or completed a practical task, demonstrated the ability to independently analyze the material, use the necessary terminology and has a lexical minimum, when answering, teaches the material clearly and logically;

"4" – the student sufficiently fully revealed the essence of the issue, has the necessary terminology and lexical minimum, but some inaccuracies are assumed that did not affect the correct understanding;

"3" – receives a student who partially disclosed the content of the issue, at a minimum mastered the necessary terminology and lexical minimum, made mistakes of a principled nature.

Semester scoring is rated on a two-point scale (enrolled/not counted) and on a 200-point scale by determining the average arithmetically for each practice session on a 4-point scale and its subsequent conversion into a 200-point scale. The minimum number of points that an applicant must score is 120. The final control of knowledge in the discipline is carried out in the form of a test.

10

Discipline policy

For productive educational and cognitive activities of students in the study of discipline, topical lectures and seminars are carried out in the form of presentations, cases, work in groups, seminars and discussions. The study of discipline involves work in the team and in separate groups. The atmosphere during classes is friendly, polite and creative. Students should be honest and responsible.

It is important to remember that attending lectures and practical classes is a prerequisite for assessing knowledge.

In turn, the teacher must constantly improve his professional level, pedagogical skills, general culture, provide conditions for students to learn curricula at the level of mandatory requirements for the content, level and scope of education, promote the development of students, educate young people to parents, women, older people, colleagues and classmates.

11

Policy on skipping classes and completing tasks after the deadline

The student, who, for good reasons, confirmed documented, was not subject to the current control of the masses the right to undergo current control within two weeks after returning to study.

A student who was absent from classes without good reason, did not participate in current control measures, did not eliminate academic debt, is not allowed to final semester control of knowledge in this discipline, and on the day of passing the exam in the examination information, the scientific and pedagogical staff is assessed "unacceptable". Re-preparation of a differentiated test in the discipline is appointed subject to the implementation of all types of educational, independent (individual) work provided for by the working curriculum of the discipline and is carried out in accordance with the schedule of liquidation of academic debt approved by the Director.
